## *Welcome to TUSA Sport*

TUSA is one of the world's first scuba equipment manufacturers.

Since 1952, our products have been constructed from the finest materials with an unparalleled commitment to design and innovation.

TUSA Sport offers a wide variety of mask and snorkel designs that combine high quality materials and several unique technologies to enhance your in-water experience.

Snorkeling or diving, TUSA has you covered.

## TUSA SPORT TECHNOLOGY

### Crystal Silicone

Made from Hypoallergenic 100% pure surgical grade crystal silicone offering unsurpassed comfort, fit and performance. It resists stretching and fatigue from extended use, reducing leakage and the need for replacement.

### EZ Strap and Buckle System

Allows masks to be quickly and easily adjusted with minimal effort. Allowing for a precise fit and ease of removal when necessary.

### ClearVu Tempered Glass

ClearVu tempered glass lenses provide superior clarity, color, transmission of light and safety over standard inferior glass.

### Hyperdry Elite - Dry Top

The latest innovation in dry snorkel technology utilizing an independent high buoyancy float for superior dry performance. This keeps the snorkel completely dry by quickly and efficiently closing the gasket.

### Hyperdry Semi-Dry Top

Keeps the main snorkel pipe dry by ejecting water through an independent escape pipe.

### High Flow Purge

A large diameter purge valve for simple, quick clearing, reducing the amount of water remaining in the mouthpiece.

### Travel Friendly Blade Design

A compact blade design allows your snorkel gear to be an easy and light travel option. Giving you more flexibility when packing for your next adventure.

## TUSA SPORT SERIES

### PRO series

The PRO series features the latest designs and innovations including 100% Crystal Silicone, ClearVu tempered glass and the Hyperdry Elite Dry Top snorkel technology. Designed for performance.

### ELITE series

Featuring 100% Crystal Silicone, ClearVu tempered glass and the Hyperdry Semi-Dry Top snorkel technology, the Elite series offers excellent performance and value.

### ADVANCED series

The Advanced series features 100% Crystal Silicone, ClearVu tempered glass and the Hyperdry Semi-Dry Top snorkel technology ideal for the entry-level watersports enthusiast.
